

Annual Activity Survey for Litcham School

Welcome to the 2024 Children's Services Annual Activity Survey!

This survey provides information about the first destinations of young people who have reached the statutory school leaving age in the summer of 2024. This year, we've seen an **increase of 546** young people surveyed this year compared to last year making this year's cohort a total of **9,821**.

A big thank you goes out to the dedicated staff at schools, colleges, and sixth forms, as well as Norfolk County Council's Advisers, Keeping in Touch Team, and the Post 16 Education, Employment and Training Team for their hard work and efforts to make this survey possible. It's important to remember that all young people are expected to continue their education or training until at least 18 years old. Therefore, the figures regarding those "in learning" are a key focus of this report.

We are pleased to report that the number of young people entering **full-time education this year has increased by just over 1%**. However, we are concerned about a decline in apprenticeships and a decrease in the overall number of young people engaged in learning. This, combined with the growth of this year's cohort, has led to an increase in the percentage of NEET (Not in Education, Employment, or Training) young people, rising by approx. **1%** from last year's figure. This represents an increase of **110 NEET** young people compared to last year.

Karin Porter

Post 16 Education, Employment and Training Service Manager
